### Automation/Technologies/Modernization

Frontier Foundries Completes Major Move to Centralize Casting Production January 32
Assuring Precise Iron Oxide Additions (O/R) February 55
One Millionth Engine Rolls Off Honda of America's Ohio Assembly Line March 8
Developing Linkages in International Technology Transfer March 5
Bodine-Robinson Co. Builds New Automated Foam Pattern Foundry March 28
Automatic Controller on Sand Mixer Improves Steel Castings Quality(O/R) May 60
Dust Collection System Solves Silica Problem at Farrar Corp. Foundry (O/R) May 61
Decatur Casting Improves Its Coremaking Quality and Productivity August 44
Financing Capital Improvements September 42
Automatic Pouring Control System Increases Productivity at Donsco October 41
Molds Are Poured Automatically on Continuously Moving Lines October 42
Turntable Solves Brass Foundry Automatic Pouring Problem October 43
Pre-Engineered Plant Addition Matches Original Structure October 44
Material Handling/Robots/Manipulators (DATABOOK) December F-1
CAD/CAM & Systems Engineering (DATABOOK) December J-1

### Computers/Software/Controls/Devices

Computer-Integrated Metalcasting February 22
Automatic Controller on Sand Mixer Improves Steel Castings Quality(O/R) May 60
Controlling and Monitoring the Diecasting Process August 20
Videos of Castings Simplify Cleaning Operations August 28
CAD/CAM & Systems Engineering (DATABOOK) December J-1

### Editorials

For Better or Worse, for Richer or Poorer January 5
A Pollution-Free Environment—Our Moral and Legal Right February 5
Developing Linkages in International Technology Transfer March 5
Workaholics Can Be Cured—Maybe April 5
Should We Have Free Trade with Mexico? May 5
Union Chief Attacks Work Team Concepts June 5
Let's Jump-Start America's Economic Powerhouse July 5
Environmental Common Sense Will Prevail—Eventually August 5
Build a Foundry, and They Will Come September 5
Are They Health Care Providers or Terrorists? October 5
How Americans, Japanese, and Germans Perceive Quality in U.S.-Made Products November 5
Are Service Quality Audits Next? December 5

### Foundries Building for the Future Series

No. 44—Frontier Foundries Completes Major Move to Centralize Casting Production January 32
No. 45—Bodine-Robinson Co. Builds New Automated Foam Pattern Foundry March 28
No. 46—Premier Aluminum Fits Permanent-Mold Processes into Niche Markets May 37
No. 47—Quality and Quantity Achieved at Honda's Ohio Engine Plant June 34
No. 48—ITT Lester Bets $50 Million on the Future July 24
No. 49—Elano Promotes Continuous Improvement in New Foundry October 20

### Government Affairs/International Events

Developing Linkages in International Technology Transfer March 5
A Capsule Report on British Industry May 8
Should We Have Free Trade with Mexico? May 5
European Community Develops Community-Wide Environmental Policy June 8
Exporting Revisited July 30
Canadian Foundry Association Holds 16th Annual Meeting August 8
European Community Proposes Quality Standards September 16
16th International Die Casting Congress and Exposition September 76
Senate Committee OKs Bill To Reform Product Liability Laws November 12

### Foundry Industry Historical Highlights

Foundry's 100th Year Begins September 7
The Gay Nineties—1892-1901 September 9
The New Century—1902-1911 October 9
The World War—1912-1921 November 9
The Roaring Twenties—1922-1931 December 9

### Management/Labor/Training/Quality/Productivity

Cautious Optimism Prevails Among U.S. Metalcasters January 28
Frontier Foundries Completes Major Move to Centralize Casting Production January 32
A Special Salute to Keith D. Millis—Inventor of Ductile Iron January 43
Metalcasters Will Increase 1991 Capital Spending by 10% February 19
Workaholics Can Be Cured—Maybe April 5
Premier Aluminum Fits Permanent-Mold Processes into Niche Markets May 37
Improving Foundry Performance through Gainsharing May 55
Quality and Quantity Achieved at Honda's Ohio Engine Plant June 34
Financing Capital Improvements September 42
Product Directory Index September A1
Manufacturers' Directory September B1
Product Directory September C1
Legislative Actions Affect Foundry Industry Future Decmeber 19

### Marketing/Purchasing/Advertising

Suppliers Executive Forum January 22
Profiles of Foundry Industry Consultants and Engineers February 31
Financing Capital Improvements September 42

### Material Handling/Robotics

Bodine-Robinson Co. Builds New Automated Foam Pattern Foundry March 28
Aluminum Dross Processing Cuts Metal Loss and Enhances Safety (O/R) March 50
Quality and Quantity Achieved at Honda's Ohio Engine Plant June 34
Crouse-Hinds Installs Advanced Melt Shop System (O/R) June 40
ITT Lester Bets $50 Million on the Future July 24
Decatur Casting Improves Its Coremaking Quality and Productivity (O/R) August 44
Navistar Installs Core-Sand Batch Mulling and Delivery System (O/R) September 84
Buckeye Brass Uses Vacuum To Remove Surplus Sand (O/R) October 42
Molds Are Poured Automatically on Continuously Moving Lines (O/R) October 42
Elano Promotes Continuous Improvement in New Foundry November 20
Material Handling/Robotics (DATABOOK) December F-1

### Melting/Refractories/Metal Pouring/Filtering

Thinking Big Helps Small Foundry (O/R) February 55
Mobile Unit Degassing Cuts Costs, Improves Quality of Aluminum Castings (O/R) February 56
Fundamentals of Melt Shop Design March 34
Molten Aluminum Delivery Systems Supply Saturn Production Lines (O/R) March 48
Ceramic Filters Improve Casting Quality at Waukesha Foundry Inc. (O/R) March 50
Aluminum Dross Processing Cuts Metal Loss and Enhances Safety (O/R) March 50
Electrical Fittings Manufacturer Installs Advanced Melt Shop System (O/R) April 40
Filtration Improves Aluminum Quality for Diecasters (O/R) May 58
Ford Installs World's Largest Pouring Furnace at Its Cleveland Casting Plant (O/R) June 49
ITT Lester Bets $50 Million on the Future July 24
Automatic Pouring Ladle Features Horizontal Coreless Inductors (O/R) July 48
Matthews International Improves Casting Quality with Metal Filtration (O/R) August 46
Automatic Pouring Control System Increases Productivity at Donsco October 41
Molds Are Poured Automatically on Continously Moving Lines October 42
Turntable Solves Brass Foundry Automatic Pouring Problem October 43
Degassing Molten Aluminum under Partial Vacuum (T/D) November 40
Refractory Roof System Improves Submerged Arc Furnace Operation (O/R) November 42
Melting/Refractories (DATABOOK) December B-1
Metal Pouring/Filtering (DATABOOK) December C-1

### Metals/Alloys/Casting Processes

A Special Salute to Keith D. Millis—Inventor of Ductile Iron January 43
Multinational Jury Selects Winners in Annual QIT Sponsored International Ductile Iron Design Contest February 8
Casting Technology Opens Doors to New Titanium Uses March 43
U.S. Aluminum Can Recycling Reached Record Levels in 1990 April 8
New Approach to Ductile Iron Treatment April 23
Premier Aluminum Fits Permanent-Mold Processes into Niche Markets May 37
Controlling and Monitoring the Diecasting Process August 20
Highlights of Ductile Iron Society's Annual Meeting August 25
Silicon Injection Cuts Costs of Additions, Improves Efficiency September 38
Optimizing the Casting Processes September 58
International Metals Engineering November 30
Investment Casting Shell Integrity November 37
Alloys/Metals/Heat Treating (DATABOOK) December A-1

### Molding/Coremaking/Tooling/Patterns

Assuring Precise Iron Oxide Additions (O/R) February 55
Mold-Line and Core Room Design May 30
Diecasting Quality Starts with the Dies July 41
Decatur Casting Improves Its Coremaking Quality and Productivity (O/R) August 44
Automated Molding Sparks Growth at Southern Aluminum & Brass (O/R) September 88
Epoxy Patterns Cut Costs of Making Vacuum-Process Aluminum Castings October 38
Molding/Tooling (DATABOOK) December E-1

### Environment/Health/Safety

Federal Environmental Laws—Two Decades of Regulation January 24
A Pollution-Free Environment—Our Moral and Legal Right February 5
Foundries and Clean Air Act—Several Unanswered Questions February 16
Avoiding Water Pollution Problems March 38
Scrubber System Ends Odor and Environmental Problems (O/R) March 48
Foundry Government Affairs Meeting Tackles Environment, Labor, Health, and Safety Issues April 27
Solid Waste—No Place To Go May 47
Dust Collection System Solves Silica Problem at Foundry (O/R) May 61
European Community Develops Community-Wide Environmental Policy June 8
Workplace Safety and Health June 44
Multi-use Ventilation System for Saturn Corp.'s Powertrain Building (O/R) June 48
Environmental Common Sense Will Prevail—Eventually August 5
AFS Honors Five for Service to Metalcasters at 4th Annual Environmental Affairs Conference October 12
Buckeye Brass Uses Vacuum to Remove Surplus Sand October 42
Environment/Health/Safety (DATABOOK) December I-1

### Sand/Binders/Sand Preparation

CISA and AFS Work To Restandardize Methylene-Blue Clay Test Procedure March 26
Automatic Controller on Sand Mixer Improves Steel Castings Quality (O/R) May 60
Navistar Installs Core-Sand Batch Mulling and Sand Delivery System (O/R) September 84
Sand/Binders/Sand Preparation/Coremaking (DATABOOK) December D-1
